

# STEAM 700 RGBA

## PRODUCT DESCRIPTION

Steam 700 RGBA is a professional fog machine 2-in-1 that has 16 RGBA 3W LEDs, adding an attractive visual effect to its original function. Thanks to the incorporation of amber LEDs, the fixture achieves a very complete and attractive color mix, standing out naturally in any given situation. With an output of 20,000 cubic feet per minute and a 2L (67 Oz.) tank capacity, Steam 700 RGBA is itself a high performance fog machine, beyond its attractive visual effect. The fixture has 5 DMX modes, (7 DMX channels max) and includes a wireless remote control that allows four different programs to be run at a distance.

## PRODUCT SPECIFICATIONS

### Source & Optics

LEDs: 16 RGBA (4R, 4G, 4B, 4A) 3W LEDs

LEDs life: 50,000 hours

### Physical

DMX connectors: 2 XLR connectors (XLR-3 In & Out)
