

STORMER LITE

PRODUCT DESCRIPTION

Stormer Lite is a high performance strobe that features 1000 x 5054 SMD 1W RGB LEDs. Usable as a flash effect or a washer, Stormer Lite is ideal for medium and large scale applications. Thanks to its light-weight and enclosure, this fixture is designed to withstand the most demanding conditions, being ideal for the long-days of touring thanks to its design.

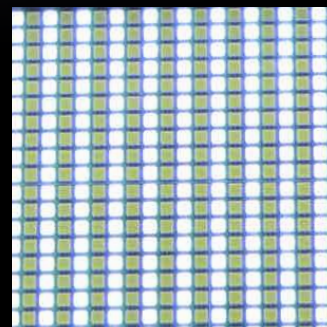

3-in-1

The combination between its 120° beam angle, 3-in-1 high-power LEDs and its functions, enables Stormer Lite to easily highlight as a blinder, strobe or washer. Conceived for large-scale applications, the fixture also incorporates an eye-catching waterflow FX.

White balance

Through its intuitive menu the fixture can adjust the intensity of its RGB mix to vary the color temperature of its projection. Thanks to this function, Stormer Lite is ideal for audiovisual applications where total control over these factors is a must.

PRODUCT SPECIFICATIONS

Source & Optics

Light Source: 1000 x 1W RGB 5054 SMD LEDs

LEDs life: 50,000 hours

Beam angle: 120°

Effects & Functions

3-in-1: Strobe + Blinder + Wash light

5 zones

High-power LEDs

3-in-1 LED technology: Smooth RGB color mixture
without multi-color shadows

Dimmer: 0-100% electronic linear

Strobe effect: 0-20Hz

Refresh rate: 25/2 seconds

Random strobe function + built-in programs

White balance

Control

DMX channels: 6/16

Operation modes: DMX, sound/active,
auto & Master/Slave

Physical

IP20 Certificate

LCD Display

DMX connectors: 2 XLR-3 & 2 XLR-5

Power Supply: PowerCON™ in/out

Dimensions: 540x320x205 mm.

21.2x12.6x8.1 in.

Weight: 9 Kg. / 19.8 Lbs.
